## **FINIALS**

particularly invite comparison of my Vanes with any others manufactured in this country, both as to styles, designs and prices. No other recommendation will be necessary. The prices of each Vane include iron spire, points of compass, gilded letters and ball. Beware of heavy Vanes. They are half or more made from cast zinc and galvanized iron. Zinc contracts and expands from the action of the weather five times as much as copper; zinc will also oxidize, but copper will not. The result will be the Vane so made will crack and peel off, and soon fall to pieces.

MY VANES ARE MADE OF

# Copper and Gilded with 23 Carat Gold Leaf
